Description

Hi,
I'm having an issue after the update to katello 3.3/foreman 1.14. I've been using a simple json to create testservers via api after upgrading and my json stopped working:

```
# cat testserver.json
{
  "host" : {
    "name" : "el7testvmd001",
    "location_id" : "2",
    "organization_id" : "1",
    "compute_resource_id" : "1",
    "compute_profile_id" : "1",
    "hostgroup_id" : "1",
    "build" : true,
    "interfaces_attributes" : [ {
      "identifier" : "eth0",
      "name" : "el7testvmd001",
      "managed" : true,
      "primary" : true,
      "provision" : true,
      "subnet_id" : 9,
      "domain_id" : 1
    }, {
      "identifier" : "eth1",
      "name" : "el7testvmd001a",
      "managed" : true,
      "primary" : false,
      "provision" : false,
      "subnet_id" : 1,
      "domain_id" : 1
    }, {
      "identifier" : "eth2",
      "name" : "el7testvmd001s",
      "managed" : true,
      "primary" : false,
      "provision" : false,
      "subnet_id" : 6,
      "domain_id" : 1
    }, {
      "identifier" : "eth3",
      "name" : "el7testvmd001n",
      "managed" : true,
      "primary" : false,
      "provision" : false,
      "subnet_id" : 5,
```

```
        "domain_id" : 1
    } ]
  }
}
# curl -H "Accept:application/json,version=2" -H "Content-Type:application/json" -X POST -u admin:
password -k --data @testserver.json https://foremanserver.tld/api/hosts
{
  "error": {"message":"ActiveModel::ForbiddenAttributesError"}
}
```

if I add

```
"content_facet_attributes" : {},
```

it works as expected again

I'm not sure if this change was on purpose and its a documentation fix or if the code needs to be touched.

Greetings
Klaas

History

#1 - 03/08/2017 07:40 AM - Klaas D

- Related to Bug #18791: Discovery v8.0.1 provisioning throws ActiveModel::ForbiddenAttributesError when Katello is installed. added

#2 - 03/08/2017 07:43 AM - Lukas Zapletal

- Project changed from Katello to Foreman

- Category set to Host groups

I believe you are hitting same issue as in #18791. I think we need to call to_h in the method. I am changing project as this is core feature.

#3 - 03/08/2017 07:53 AM - The Foreman Bot

- Status changed from New to Ready For Testing

- Assignee set to Lukas Zapletal

- Pull request https://github.com/theforeman/foreman/pull/4364 added

#4 - 03/10/2017 04:54 AM - Timo Goebel

- translation missing: en.field_release set to 227

I'd suggest putting this on 1.14.3. If anybody object, feel free to change the parameter.

#5 - 03/10/2017 05:01 AM - Lukas Zapletal

- Status changed from Ready For Testing to Closed

- % Done changed from 0 to 100

Applied in changeset ff74c383574a43952a9c9c371f407a20e5f7bc5a.

#6 - 08/30/2017 08:59 AM - Lukas Zapletal

- Related to Bug #20797: Provisioning errors with undefined method permit! for ActiveSupport::HashWithIndifferentAccess added
