

SELinux - Refactor #18852

Make use of official Passenger 5 SELinux policy

03/09/2017 05:02 AM - Lukas Zapletal

<b>Status:</b>	Rejected

<b>Bugzilla link:</b>		<b>Red Hat JIRA:</b>
<b>Pull request:</b>		
<b>Description</b>		
It looks like passenger upstream is doing own policy now:		
<a href="https://github.com/phusion/passenger_rpm_automation/blob/master/specs/passenger/passenger.te">https://github.com/phusion/passenger_rpm_automation/blob/master/specs/passenger/passenger.te</a>		
There is also some magic in the 5.0 codebase (setting file contexts on sockets) that essentially requires this policy to be loaded, so our custom policy will not work. We will need to adjust to that.		

History

#1 - 03/29/2021 02:36 PM - Ewoud Kohl van Wijngaarden

- Status changed from New to Rejected

With the plan to move away from Passenger I think we can close this.
