<b>Description</b> Cloned from <a href="https://bugzilla.redhat.com/show_bug.cgi?id=1430742">https://bugzilla.redhat.com/show_bug.cgi?id=1430742</a>	
<b>Description of problem:</b> The host page has possibility to filter hosts based on multiple keys. One of them is user.* which is filtering the hosts based on their owner, however, the owner can't be only user, but also usergroup. Therefore the usergroup filter should be implemented as well.	
<b>Version-Release number of selected component (if applicable):</b> Foreman nightly	
<b>How reproducible:</b> try to use search and find hosts based on their respective usergroup.	
<b>Actual results:</b> Usergroup filtering is missing.	
<b>Expected results:</b> Usergroup filter will be added.
