

Foreman - Bug #1889

RFE: Support IDN domains

10/05/2012 12:34 AM - Miroslav Suchy

Status: Rejected	
Priority: Normal	
Assignee:	
Category:	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
Please add support for IDN domains to Foreman.	
You can leverage my notes, BZ and commits from implementation in Spacewalk: https://fedorahosted.org/spacewalk/wiki/Features/NonLatinCharacters	
Currently when I try to add IDN domain žlutý.cz, it will show something like žlut???.cz, which is definitely not correct.

- Status changed from New to Need more information

I can't reproduce that and could add any utf8 char, where exactly are you seeing that, which db did you use?
can you attach the logs?

#2 - 06/19/2013 09:15 AM - Benjamin Papillon

Hello,

Can you provide us the informations Ohad Levy requested?

Regards,

#4 - 02/29/2016 03:13 AM - Tomer Brisker

- Status changed from Need more information to Rejected

No information was provided in over 2 years. IDN support should be included in suggested solution for [#8045](#). Closing.
