Pull request:	
Description Descriptions are currently searchable independently of titles. Also, API returns them as separate fields. Other than that they aren't really exposed anywhere and they serve only as a source for the title (which is description shortened to 255 characters). So the current value of keeping them both is very little. ToDo: 1. On UI : `Description` should be replaced by `Title` 2. Description column should be removed from db.

History

#1 - 03/16/2017 08:49 AM - Swapnil Abnave

- Related to Bug #17304: hammer os: unify --description vs. --title for its subcommands added

#2 - 03/16/2017 08:50 AM - Swapnil Abnave

- Subject changed from OS: unify description vs title - keep title remove description to OS: unify description vs title - replace description with title on UI

#3 - 03/16/2017 10:07 AM - Thomas McKay

- Project changed from Katello to Foreman

- Category deleted (175)

#4 - 03/16/2017 10:09 AM - Swapnil Abnave

- Target version set to 177

#5 - 03/16/2017 11:37 AM - Swapnil Abnave

- Status changed from New to Pending

#6 - 06/15/2017 09:48 AM - Swapnil Abnave

- Target version changed from 177 to 1.17.0-RC1

#7 - 09/13/2017 01:59 AM - Swapnil Abnave

- Target version changed from 1.17.0-RC1 to 1.15.6

#8 - 09/13/2017 02:34 AM - Marek Hulán

IIRC os description has specific function. It's generated based on name and version. This might potentially be a big change and should be handled carefully

#9 - 10/25/2017 09:30 AM - Swapnil Abnave

- Target version changed from 1.15.6 to 230
