Foreman - Bug #1920

Template URLs should not be based on the browser address bar

10/29/2012 10:23 AM - Greg Sutcliffe

Status:	Closed		
Priority:	Normal		
Assignee:	Greg Sutcliffe		
Category:	Templates		
Target version:	1.1		
Difficulty:		**Fixed in Releases:**	
Triaged:		**Found in Releases:**

Pull request:			

Description

Templates are generated using url_for() which causes the templates to get the base url of the foreman server from the user's web browser address. This is incorrect if you're installing Foreman locally and accessing http://localhost:3000/

We should instead use the Settings[:foreman_url] value to construct the URLs. Patch incoming.
