

Foreman - Bug #1927

After renaming host, the name stays same on hosts/hosname page.

Description I had a host 'old-name'. I renamed it to 'new-name' https://foreman/hosts shows it as 'new-name', but clicking on it I get to https://foreman/hosts/new-name showing the old-name in the heading. But window title shows new-name.

- Category set to Host creation
- Priority changed from High to Normal

#2 - 11/07/2012 09:59 AM - Greg Sutcliffe

Duplicate of [#1860](#)?

#3 - 11/13/2012 12:15 PM - Greg Sutcliffe

- Target version set to Bug scrub

#4 - 11/15/2012 12:07 PM - Robert Birnie

I can't reproduce this. :(Renaming seems fine to me.

#5 - 11/15/2012 12:34 PM - Sam Kottler

- Status changed from New to Closed

This is a duplicate and I also can't reproduce the issue. @Jaroslav, can you provide more information?

I'm going to close this issue for now, please comment on [#1860](#) with additional info.
