<b>Pull request:</b>	
<b>Description</b>	
As a part of Katello integration we need to run Foreman on subpath. Some parts of the code however don't work well in this context.	
Patches addressing addressing this issues will come soon	

#### Associated revisions

##### Revision 5f75d98a - 12/05/2012 09:06 AM - Ivan Necas

fixes #1937 - Foreman doesn't work well when run on subpath

- request\_url is not enough to pass form controller to tftp  
Other variables (like script\_name) need to be used from controller.url\_options to properly generate the path in the PXE template.
- use rails helper to get the path to noVNC source  
Hardcoded value makes problems when running Foreman from subpath
- helper javascript method for generating path to foreman

##### Revision ee2b39c6 - 12/12/2012 10:02 AM - Ivan Necas

refs #1937 - fix graphs hrefs when running from subpath
