

## Foreman - Bug #19483

### User with inherited admin flag cannot see environments outside org/locs during import

05/09/2017 07:34 AM - Dominic Cleal

<b>Pull request:</b> <a href="https://github.com/foreman/foreman/pull/4516">https://github.com/foreman/foreman/pull/4516</a>	
<b>Description</b>	
The change in <a href="#">#18995</a> includes a conditional to <code>User#visible_environments</code> to return envs with no match to associated locations and organizations:	
<a href="https://github.com/foreman/foreman/commit/f4b7c52fe4012592656c0fcd56bccdd09e3ea246a#diff-4676c008b11a5480d73d4a6de01e45b9R410">https://github.com/foreman/foreman/commit/f4b7c52fe4012592656c0fcd56bccdd09e3ea246a#diff-4676c008b11a5480d73d4a6de01e45b9R410</a>	
This uses the condition <code>User.current.admin</code> , but it should use <code>User.current.admin?</code> , which is the method that returns inherited admin flags. The <code>#admin</code> method is the attribute, so this would only work for admin users with the flag explicitly set.
