

## Foreman - Bug #19515

### Smart Proxy name incorrectly allows " " characters

05/10/2017 11:04 AM - Josh Pavel

Status:	Rejected	
Priority:	Normal	
Assignee:		
Category:	Web Interface	
Target version:		
Difficulty:		<b>Fixed in Releases:</b>
Triaged:		<b>Found in Releases:</b> 1.14.3
Bugzilla link:		<b>Red Hat JIRA:</b>
Pull request:		

#### Description

If you named a smart-proxy with a name with spaces, e.g., "Azure 6 East US", the UI accepts the value, but then attempting to edit/manage the smart proxy through the WebUI fails.

The UI then links a browser to "[https://foremanurl.com/smart\\_proxies/4-Azure%206%20East%20US%202](https://foremanurl.com/smart_proxies/4-Azure%206%20East%20US%202)" (Firefox displays a literal " " instead of %20)

And the following stack trace is available

```

```

If you click "edit" and then rename the smart proxy to something without spaces, everything is functional again.

## History

### #1 - 05/10/2017 11:07 AM - Josh Pavel

The UI also allows ()'s. and presumably other characters that will break the UI when trying to access the smart-proxy.

### #2 - 05/10/2017 11:14 AM - Dominic Cleal

- Status changed from New to Need more information

I think the bug you're reporting is the error "unknown attribute 'status' for Class.", which is tracked already as [#19142](#).

I'm not sure why this would be linked to the naming, the smart proxy name should support most alphabetical characters, like other name fields in the application. Do you have any information linking these two things?

**#3 - 05/10/2017 11:46 AM - Josh Pavel**

Since I opened that ticket, I can tell you I've encountered both of these on the same exact server. :-)

This one is interesting since I was able to "fix" it by renaming the Smart-Proxy to only include alpha-numeric + dashes. Perhaps the problem in [#19142](#) is similar, and there are unexpected characters/values in certain facts that are trying to be filtered?

**#4 - 05/11/2017 03:09 AM - Dominic Cleal**

- *Status changed from Need more information to Rejected*

I think you should add this information to the existing ticket then, as supporting spaces in a smart proxy name isn't a bug, it is intentional.

**#5 - 05/11/2017 09:20 AM - Josh Pavel**

I'm not sure I was clear, then - if it is supported, it doesn't work. If you name a smart proxy with a space, you get the "unknown attribute 'status' for Class." all across the WebUI

**#6 - 05/11/2017 09:22 AM - Dominic Cleal**

It is supported, and if that's the cause of [#19142](#) then we can continue to use that ticket. I don't think this one is necessary if it's the same issue.

(Incidentally, I can't reproduce either.)

**#7 - 01/23/2018 09:23 PM - John Mitsch**
