Description	
<p>Hello,</p> <p>I upgraded foreman from 1.14.3 to 1.15.0. When I provision host through pxe boot it never ends. usually MAC based file under changed to local boot upon provisioning completed. but in forman-1.15.0 it never changed to local boot after provisioning complted.</p> <pre>[root@ol07fmn00 ~]# more /var/lib/tftpboot/pxelinux.cfg/01-52-54-00-2f-f7-db default linux label linux kernel boot/OracleLinux-7.3-x86_64-vmlinuz append initrd=boot/OracleLinux-7.3-x86_64-initrd.img ks=http://129.144.66.4/unattended/provision?t oken=7ff87419-264f-4582-bf9f-2b0d039 6b8c5 ksdevice=52:54:00:2f:f7:db network kssendmac IPAPPEND 2</pre> <p>the above file will change as below after provisioning completed</p> <pre>[root@ol07fmn00 ~]# more /var/lib/tftpboot/pxelinux.cfg/01-52-54-00-a8-65-76</pre> <pre>DEFAULT menu PROMPT 0 MENU TITLE PXE Menu TIMEOUT 200 TOTALTIMEOUT 6000 ONTIMEOUT local LABEL local MENU LABEL Chainload into bootloader on the first disk MENU DEFAULT LOCALBOOT 0 LABEL local_legacy MENU LABEL Chainload into bootloader on the first disk - alternative COM32 chain.c32 APPEND hd0</pre> <p>but it never happened in foreman-1.15.0</p> <p>please help me</p> <p>build status under properties tab never change to installed</p> <p>Thanks Laxman</p>	

History

#1 - 05/17/2017 03:11 AM - Dominic Cleal

- Tracker changed from Bug to Support

- Project changed from Smart Proxy to Foreman
- Category deleted (TFTP)
- Status changed from New to Feedback

Please use the mailing list or IRC channel for support, not the bug tracker: <https://theforeman.org/support.html>

Without any logs from the build completion, it's very difficult to say whether this is a bug or configuration error. There should be an /unattended/built call logged at the end of the build.
