Do you have ostree installed on the fpc? I had the same error as you until I installed ostree on the proxy (latest dev/master). But now seeing a new error that is coming from ostree OST0002: Pulling remote refs failed. Reason: GLib.Error('Error performing TLS handshake: An illegal TLS extension was received.', 'g-tls-error-quark', 1)

The above error I mentioned is most likely related to this bug in ostree

Error: OST0002: Pulling remote refs failed. Reason: GLib.Error('Error performing TLS handshake: An illegal TLS extension was received.', 'g-tls-error-quark', 1)
