Foreman - Refactor #19706

Don't treat DHCP leases as conflicts

05/30/2017 06:47 AM - Lukas Zapletal

Pull request:	https://github.com/theforeman/foreman/pull/4555		

Description

Our previous code that should ignore leases was based on existence of hostnames, it used to work but no longer works in recent releases. In smart-proxy, we added explicit flag to indicate if a DHCP record is a reservation or a lease: theforeman/smart-proxy#532

This patch leverages this and removes the old hostname "hack" to proper test if the existing record is a lease or not. Conflict is not thrown in that case.
