

Foreman - Bug #1971

Add complex data to parameters

11/22/2012 09:26 AM - Greg Sutcliffe

Pull request:	
Description Smart variables can accept complex data types, like json or yaml. It would be nice to be able to assign that direct to a parameter as well. The current workaround is to create a do-nothing wrapper class with an attached smart-variable, which feels clunky.
