Description

Login size can be quite large in cases it consists both the username, and the domain (like oVirt uses), so a larger size should be supported (100 sounds like a reasonable limit)

Associated revisions

Revision 9e8be300 - 12/17/2012 02:30 PM - Oved Ourfali

fixes #1978 - changing login maximum size to 100

In case of using a long login name (such as ovirt_username@domain), on
the fly login will fail. Increasing the maximum login size to 100.
