Pull request:			

Description

If I select an initial Location and Org :
it filters what compute resources are available.
If I select one compute resource and then change location
and pick one wich does not contains the selected cr,
I get a 500 and compute resources not refreshed.

Rendered hosts/_compute.html.erb (1.9ms)

Associated revisions

Revision 2fa95807 - 01/24/2013 07:51 AM - Joseph Magen

fixes #2001 - Changing Loc or Org after compute resource selection give 500 error

History

#1 - 12/05/2012 05:26 AM - Ohad Levy

so a possible solution would be to redirect to the index action of each controller after a org/location switch?

#2 - 12/27/2012 08:11 AM - Ohad Levy

- Assignee changed from Ohad Levy to Joseph Magen

@Joseph, I think this maybe the same bug as the one you are working on?

#3 - 01/17/2013 02:51 AM - Ohad Levy

both #2009 and this ticket happens when there is a mismatch between host direct attributes (such as subnet) and the location or org that does not contain that subnet.

#4 - 01/24/2013 11:29 AM - Joseph Magen
