Target version:			
Triaged:	No	**Found in Releases:**	1.15.1
Fixed in Releases:			

Description

The save_to_file() function was added with feature [#18205](#) but the documentation makes no mention of it at all. It's pretty obvious what it does and how to use it but I would not have known it existed had I not looked at the kickstart_networking_setup snippet that ships with foreman 1.15.1
