Foreman - Bug #2045

error when searching a host by class

12/13/2012 10:34 AM - David Schmitt

Description

The filter was "class = nis::server" leading to this url:
https://foreman/hosts?utf8=%E2%9C%93&search=class+%3D+nis%3A%3Aserver

and this error message:

    ActiveRecord::StatementInvalid
    PG::Error: ERROR: invalid input syntax for integer: "nil" LINE 1: SELECT "hosts".* FROM "hosts" WHERE ((hosts.id = 'nil'))
    OR... ^ : SELECT "hosts".* FROM "hosts" WHERE ((hosts.id = 'nil')) ORDER BY "hosts"."name" ASC NULLS FIRST LIMIT 20
    OFFSET 0
    app/controllers/hosts_controller.rb:41:in `index'
    app/controllers/hosts_controller.rb:37:in `index'
    lib/foreman/threadsession.rb:31:in `clear_thread'

when trying "class = 'nis::server'" (note the extra quotes) no error is thrown and the host list is not filtered.

I would have expected the query to return all hosts that have the nis::server class assigned (directly or transitively).

This is foreman 1.1RC1 running on Scientific Linux 6.2 with the packages from yum.theforeman.org

I send pull request at https://github.com/theforeman/foreman/pull/310

Should we removed all single quotes in the search value??

value = value.gsub(/'/,"")
