<b>Description of problem:</b>  The text in the web UI "keep the host for future action", is vague.	
<b>Version-Release number of selected component (if applicable):</b> Red Hat Satellite (build: 6.3.0) foreman-compute-1.15.3-2.el7sat.noarch	
<b>Steps to Reproduce:</b> 1. navigate to Hosts → All Hosts and select the check box to the left of the hosts to be disassociated. 2. From the Select Action drop-down menu, select the Disassociate Hosts button.  3. Notice that in the confirmation window it says:  Optionally select to keep the host for future action.  Notice only one selection box for two hosts (see attached screen capture)  The text should have a helper icon to explain more verbosely what it does in case the user does not understand
