

Installer - Bug #20939

Custom repo for openscap is enabled by default for rhel6

09/15/2017 07:56 AM - Marek Hulán

Status:	Closed	
Priority:	Normal	
Assignee:	Marek Hulán	
Category:	Foreman modules	
Target version:		
Difficulty:		Fixed in Releases:
Triaged:		Found in Releases:
Bugzilla link:	1392425	Red Hat JIRA:
Pull request:	https://github.com/theforeman/puppet-for-eman_proxy/pull/372	
Description Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1392425		
Steps to Reproduce: Run the installer on EL6 with --help and see the default value for <pre>--foreman-proxy-plugin-openscap-configure-openscap-repo Enable custom yum repo with packages need ed for smart_proxy_openscap, (default: true)</pre>		
Actual results: <pre>--foreman-proxy-plugin-openscap-configure-openscap-repo Enable custom yum repo with packages needed for smart_proxy_openscap, (default: true)</pre>		
Expected results: The custom repo should be disabled by default <pre>--foreman-proxy-plugin-openscap-configure-openscap-repo Enable custom yum repo with packages needed for smart_proxy_openscap, (default: false)</pre>		
Additional info: The problem seems to be only with rhel6
