

Foreman - Bug #21014

No Debian packages for 1.16

Description	
Hi, it seems http://deb.theforeman.org/dists/jessie/1.16/binary-amd64/Packages does not yet carry Debian packages (while 1.15 does). Would it be possible to add these as well to ease 1.16 testing before release?

There's not 1.16 RC1 out yet. Depending on PuppetLabs' non-ability to deliver puppetserver 5 packages for Debian/stretch, stretch packages of Foreman might be even available only for RC2 and later.
