Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1483240

Description of problem:

Unable to delete users logged in via ldap usergroups with org and loc set

How reproducible:

Steps to Reproduce:
1. Create a ldap-auth-source with org and loc
2. create a usergroup and add external user-group to it
3. login to sat6 via a user belonging to the user-group added in step 2.

Actual results:

Unable to delete users logged in via ldap usergroups with org and loc set

Oops, we're sorry but something went wrong "Unknown member type"

This issue is only seen for users from ldap auth source , for both when only organization is set and also when location is set.

Expected results:

Should be able to delete users logged in via ldap usergroups with org and loc context set.
