Description	
Need a clear information on “Unregister Host” options as it deleted the host itself	
Customer wants a clear instruction of the following option “ Satellite UI - > Content Host - > Host - > “Unregister Host” - > “Completely delete the host record and remove all reporting, provisioning, and configuration information” as it shutdown and delete the VM from ESX/compute resource also.

Revision 1875ec2a - 12/20/2017 02:27 AM - Walden Raines

Fixes #21051: warn on unregistering of host if delete enabled.

If the setting 'unregister_delete_host' is set then we should warn users upon unregistering a host and selecting 'delete host record' that the action could remove the VM.
