

Packaging - Bug #21069

yum repo foreman-plugins installed with no security

09/22/2017 06:27 AM - Radoslaw Piliszek

Status: Duplicate	
Priority: Normal	
Assignee:	
Category: RPMs	
Target version:	
Difficulty: trivial	Fixed in Releases:
Triaged: No	Found in Releases: 1.15.2
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description foreman-release installs foreman-plugins yum repo with gpgcheck=0 and baseurl with plain HTTP. If gpg-signing packages is not feasible, then at least using HTTPS instead of plain HTTP would improve system's security with regard to installing/updating those packages.	
Related issues: Is duplicate of Packaging - Feature #4788: Plugin rpms not signed New
