Foreman - Bug #21201

Notification link not properly shown

10/04/2017 04:37 PM - Walden Raines

Status:	Duplicate		
Priority:	Normal		
Assignee:	Amir Fefer		
Category:			
Target version:			
Difficulty:		**Fixed in Releases:**	
Triaged:		**Found in Releases:**	
Bugzilla link:	1488975	**Red Hat JIRA:**	
Pull request:			

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1488975
Description of problem:

Notifications on UI Drawer don't have enough space to be properly show on screen (see screen shot). To access Detail link one have to scroll inside the html element.

Version-Release number of selected component (if applicable):

6.3 snap 14

How reproducible:

Always

Steps to Reproduce:
1. Make a discovery host available
2. Open Notification Drawer
3. Click on notification's detail (The 3 dots icon on top right corner)

Actual results:

Detail button is hidden and user must scroll to access it.

Expected results:

Button should be accessible without scrolling.

Amir - also you screenshot looks wrong, the dropdown should be just below the kebab. I wonder if we are misusing the pf css in this case as these are the kind of bugs that I don't believe exists in pf repos.

Looks like migrating to patternfly-react fixed this issue
https://projects.theforeman.org/issues/23357
see attached image.
