Description

Description of problem:
Browsing capsule puppet environments, clicking on 'number of classes' display incorrect result.

How reproducible: Always

Steps to Reproduce:
1. In Foreman, navigate to Infrastructure -> Capsules
2. Click on a Proxy name
3. Select the Puppet tab
4. Select the Environments sub tab
5. Open in new tab -> Click on any of the numbers in the "Number of classes" column
6. Result doesn't match with total number of classes

Actual results:
There are 5 puppet class listed

Expected results:
There should be 0 Result

Additional info:
Scoped search query is "environment=my_env", it should probably contain smart_proxy_name as well. I was able to reproduce once I added a second puppet proxy.

History

#1 - 10/09/2017 08:14 AM - Ondřej Pražák

- File Puppet-classes-list.png added

- File Puppet-environments.png added

*- Subject changed from Browsing capsule puppet environments, clicking on 'number of classes' display incorrect result
 to Browsing capsule puppet environments, clicking on 'number of classes' display incorrect result*

- Category changed from PuppetCA to Puppet integration

- Target version set to 115
