Foreman-Proxy Monitoring 0.1.0 not published

10/11/2017 06:16 AM - Dirk Götz

Status: Resolved	
Priority: Normal	
Assignee: Ewoud Kohl van Wijngaarden	
Category: RPMs	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases: 1.16.0
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
<p>According to koji rubygem-smart_proxy_monitoring was build in version 0.1.0 for 1.15 but not 1.16, so it is not available in the yum repos for 1.16 and nightly, only 1.15. I am not sure what went wrong / is missing.</p> <p>http://koji.katello.org/koji/packageinfo?packageID=73 http://yum.theforeman.org/plugins/1.15/el7/x86_64/ http://yum.theforeman.org/plugins/1.16/el7/x86_64/ http://yum.theforeman.org/plugins/nightly/el7/x86_64/</p> <p>Puppet module is updated with 1.15 so 0.1.0 is required for all options available from the installer.</p>

- Status changed from New to Assigned
- Assignee set to Ewoud Kohl van Wijngaarden

I kicked off builds for 1.16 and nightly. I think this should be enough once the mashes are done.
