Description

Attempting to install Foreman 1.16.0-RC1 under either CentOS 7 or Ubuntu 16.04 results in the below trace when attempting to start puppetserver. Installing puppetserver on its own does not result in this error, this only occurs when installed by foreman-installer. Attached is a Vagrantfile that I used to create the environment.

```
Exception in thread "main" java.lang.RuntimeException: Service ':FilesystemWatchService' not found

History

#1 - 10/12/2017 02:55 PM - Anonymous

- Project changed from *Foreman* to *Installer*
- Category set to *External modules*
- Status changed from *New* to *Feedback*
- translation missing: *en.field_release* deleted (240)
- Assignee set to *Anonymous*

Unfortunately RC1 didn't include the needed puppet module updates in the tarball, please try again with RC2, once it's released.
