<b>Category:</b> Web Interface	
<b>Target version:</b> 1.1	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b>	<b>Found in Releases:</b>
<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
<p>On the host properties page, the table named "Properties" has several default values:</p> <ul style="list-style-type: none"><li>• Domain</li><li>• Puppet Environment</li><li>• Operating System</li><li>• Location (if enabled)</li><li>• etc</li></ul> <p>It would be nice if the values of these properties were hyperlinks that returned search values for that property. For example, clicking on the value of the "domain" property would show you all hosts that match that domain.</p>	

#### Associated revisions

Revision fea8c959 - 01/20/2013 10:48 AM - Joseph Magen

fixes #2136 hyperlink host properties

#### History
