

Katello - Bug #21368

Canceling the Actions::Pulp::Repository::RegenerateApplicability task did not do anything

10/17/2017 04:21 PM - Leah Fisher

Status: Needs design	
Priority: Normal	
Assignee:	
Category:	
Target version: Katello 3.6.1	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
<p>My publish task was going for a long time and it looked like the Actions::Pulp::Repository::RegenerateApplicability task was doing nothing so I attempted to cancel the task, but did not see any results from cancelling the task.</p> <p>I had to manually cancel the task in pulp.</p>
