Description

I have bind-9.8.2-0.10.rc1.el6_3.3.x86_64
And my bind config has wildcard record for my domain:

- IN CNAME fabrikant.test.

When i save new host in foreman for this domain, when i get error:
"the dns record is exist" -> owerwrite? -> yes -> error 400

or

error message: Conflict DNS A Record xxx.fabrikant.test/192.168.10.101 already exists

Please fix it, if possible.
