

## Foreman - Bug #21566

### top level vertical navigation menu is slow to respond

11/02/2017 06:33 PM - Andrew Kofink

<b>Pull request:</b>	<a href="https://github.com/foreman/foreman/pull/5898">https://github.com/foreman/foreman/pull/5898</a>	
<b>Description</b>		
The old horizontal nav used to open the top level menus (i.e. Monitor, Content, Containers) immediately. The new vertical nav has a delay (maybe half a second?) before the menu opens. It should open immediately.

- Project changed from Katello to Foreman
- Category changed from Web UI to Web Interface
- Assignee set to Amir Fefer
- Target version set to 228

**#2 - 11/02/2017 08:56 PM - Roxanne Hoover**

The delay is intentional. If memory serves me correctly this was so that users who "wander" with their mouse weren't getting inundated with fly-outs. The small delay offers that relief.

**#3 - 11/03/2017 01:17 PM - Andrew Kofink**

The delay is either too long, or the menu should respond immediately to clicks. As a user, it feels like I'm wasting time waiting on the menu to open. Also, the horizontal navigation has always opened immediately, so I would think that users are accustomed to that behavior. Is this delay a result of feedback from UX trials? I would be curious how many users out of the group commented on this aspect of the menu.

**#4 - 11/03/2017 08:12 PM - Marek Hulán**

+1 to comment 3, if menu opens immediately after click, it would be a win :-)

So, I did some research, and patternfly doesn't allow overriding this delay, though there's an issue/feature request to add it [1]. I went ahead and submitted a PR to patternfly [2] to implement the feature, since the conversation on the feature request seemed stale.
