fixes #21579 - pagelets for host show

History

#1 - 11/06/2017 11:25 AM - Daniel Lobato Garcia

Host#show is pretty complex, what extension points are you looking for? Graphs? Buttons? Left menu?
Is there any reason why you would prefer not to use Deface as most plugins currently do?
Just looking for some answers to help clarify the requirements to close this issue

The host show page should have Pagelet extension points for tabs (left menu). I don't want to use deface as this feels pretty hacky.
