

Foreman - Bug #2179

Wrong owner_type on the request returns 500

02/04/2013 06:16 AM - Daniel Lobato Garcia

Status: Closed	
Priority: Low	
Assignee: Daniel Lobato Garcia	
Category: API	
Target version: 1.3.0	
Difficulty: easy	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
Hi all,	
This request:	
<pre>Parameters: {"id"=>"4777", "host"=>{"owner_id"=>1, "owner_type"=>"UserGroup"}} Authorized user user (Name Lastname) Operation FAILED: uninitialized constant UserGroup Completed 500 Internal Server Error in 341ms</pre>	
Should return a 400 (bad request) instead of the 500 (Internal server error) it currently returns.
