Description	
It would be nice to be able to search by class.	
A simple change to app/views/hosts/index.html.erb seems to achieve this:	
<pre>diff foreman/app/views/hosts/index.html.erb fore1/app/views/hosts/index.html.erb 20a21,22 > <%= f.label :puppetclasses, "Class" %> > <%= f.collection_select :puppetclasses_id_equals, Puppetclass.all, :id, :name, :include_blank => true %></pre>

I was just testing this.

It works if the Class was added to the host individually.

It doesn't work if the Class was included via Hostgroup.

Is there any way to address this?
