### Description

The smart proxy status page gives no indication that there is a pulp error -- specifically :
pulp.server.webservices.application:ERROR: (14352-64512)   The database has not been migrated to the current version. Run pulp-manage-db and restart the application.

Upgrading to newer versions of foreman packages also do not indicate when the pulp database may need migration.

## History

**#1 - 11/29/2017 06:52 PM - Ohad Levy**

*- Project changed from Foreman to Katello*

*- Category deleted (Smart Proxy)*

**#2 - 12/05/2017 09:41 AM - Lukas Zapletal**

*- Related to Feature #676: Syslog support added*

**#3 - 12/06/2017 06:57 PM - Justin Sherrill**

*- Category set to Foreman Proxy Content*

**#4 - 12/06/2017 06:58 PM - Justin Sherrill**

*- translation missing: en.field_release set to 284*

This likely could be gotten from the pulp status check (ping)

**#5 - 03/28/2018 06:23 PM - John Mitsch**

*- translation missing: en.field_release changed from 284 to 352*
