Pull request:	https://github.com/theforeman/foreman/pull/5136, https://github.com/theforeman/foreman/pull/5151		

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1372468

Description of problem:

Please add a link from the Infrastructure->Subnets page for each subnet to a report which shows all hosts using this subnet

Additional Info:

When reviewing a subnet, it is helpful if I can quickly see every system using that subnet. Current reports only seem to let me filter on the Primary NIC Subnet.
