Pull request:	https://github.com/theforeman/foreman/pull/5425, https://github.com/theforeman/foreman/pull/5738		

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1458754

It should be possible to specify the number of sockets to be set
for the VM. Setting 2 cores and 9 sockets should lead to
having 9 sockets, each with 2 cores, so the total number or cores would be 18.

The topology element should be <topology cores="2" sockets="9"/>
