#### History

##### #1 - 02/20/2013 08:04 AM - Dominic Cleal

- *Category set to Organizations and Locations*

Perhaps mismatches should detect and fix this?

Or perhaps it's valid to have different locations over the hostgroups hierarchy and this should work?

##### #2 - 05/29/2015 08:11 AM - Dominic Cleal

- *Related to Bug #1998: Nested hostgroup inheritance should be reflected on Location / Organization added*

##### #3 - 04/21/2021 08:01 AM - Leos Stejskal

- *Status changed from New to Closed*

I'm closing the issue,  
it have been here for some time and I wasn't able to reproduce it on the latest version.  
If you think that the issue is still relevant feel free to reopen it.
