

Foreman - Bug #2246

deleting an environment also deletes the provisioning templates

02/22/2013 05:09 PM - Mark Heily

Status: Closed	
Priority: Normal	
Assignee: Tomáš Strachota	
Category:	
Target version: 1.2.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
I can reproduce the problem that was reported here: https://groups.google.com/forum/?fromgroups=!topic/foreman-users/BG-tAeWQVA	
When you delete a Puppet environment, any provisioning templates associated with the environment are automatically deleted.	
Steps to reproduce:	
<ol style="list-style-type: none">1. Create a new provisioning template2. Associate the template with a Puppet environment3. Delete the puppet environment	
After this is completed, the provisioning template is also deleted. This creates an entry in the audit log similar to:	
John Smith (192.168.1.1) destroyed Config Template: test-delete-me
