### Description

I have found that when I run each of the following:

foreman-installer --scenario katello \
--enable-foreman-plugin-ansible

foreman-installer --scenario katello \
--enable-foreman-plugin-openscap

foreman-installer --scenario katello \
--enable-foreman-plugin-remote-execution

they produces the following error from a fresh install.

/Stage[main]/Foreman/Foreman::Rake[apipie:cache:index]/Exec[foreman-rake-apipie:cache:index]: Failed to call refresh:
'/usr/sbin/foreman-rake apipie:cache:index' returned 1 instead of one of [0]
/Stage[main]/Foreman/Foreman::Rake[apipie:cache:index]/Exec[foreman-rake-apipie:cache:index]: '/usr/sbin/foreman-rake
apipie:cache:index' returned 1 instead of one of [0]

## History

**#1 - 02/28/2018 10:15 AM - Matthew Smith**

*- Subject changed from foreman-installer probles to foreman-installer problems*

*- Category set to Installer*

**#2 - 03/28/2018 06:21 PM - John Mitsch**

*- translation missing: en.field_release changed from 284 to 352*

**#3 - 06/17/2018 07:40 PM - Matthew Smith**

*- Status changed from New to Resolved*

This is now working as expected in the 3.6.0 release and 3.7RC release
