Description
Since our integration tests are quite flaky, at times because of DNS problems or similar, I suggest we move away from minitest-optional_retry (unmaintained) to minitest-retry which seems more maintained and provides more options. Moreover, we can just specify a limit of 3 retries, and print messages on consistent failures.

Fixes #22880 - Move to Minitest::Retry for integration tests

Since our integration tests are quite flaky, at times because of DNS
problems or similar, I suggest we move away from minitest-optional_retry
(unmaintained) to minitest-retry which seems more maintained and
provides more options. Moreover, we can just specify a limit of 3
retries, and print messages on consistent failures.
