Katello - Feature #22914

As a user, I want to scope repository permissions by lifecycle environment

03/15/2018 05:09 PM - Thomas McKay

Status:	Closed		
Priority:	Normal

Bugzilla link:		**Red Hat JIRA:**	
Pull request:	https://github.com/Katello/katello/pull/7514		

Description
Adding a lifecycle environment check to readable repositories would allow finer control of visibility. Specifically, only allowing read access to a "Production" lifecycle would keep users from seeing other pre-production environments.

- translation missing: en.field_release changed from 338 to 349

#4 - 07/03/2018 08:46 PM - Partha Aji

- Triaged set to No

Tom,

This is not really feasible in the present model given that the permissions are set on the products and not repositories. What exactly did you have in mind? May be permitting products in a given environment ?
