

## Foreman - Bug #23018

### Switching from one environment to another causes parameter formatting to become mangled

03/26/2018 03:23 PM - Mike Wilson

| <b>Description</b>  |            |                                  |
| <p>I've noticed that when I switch to an environment on a host using the EditHost-&gt;Host tab, "Environment" setting that about 90% of the time the formatting in parameters for classes that are available in both environments get mangled.</p> <p>The work around for me right now is to copy the entries into something else and then replace after I've switched environment.</p> |            |                                  |

#### History

**#1 - 04/03/2018 10:37 AM - Daniel Lobato Garcia**

- translation missing: en.field\_release deleted (332)

**#2 - 07/24/2018 02:18 PM - Dan Lowe**

I think this was already addressed in <https://projects.theforeman.org/issues/15984> (released in 1.18)
