Revision e7b1c42c - 04/03/2018 12:11 PM - Lukas Zapletal

Fixes #23059 - foreman-journald package now installable

Two issues:

- 1) It was not in comps, so not available.
- 2) There are two gems: `logging-journald` (1.0) and `journald-logger` (2.0). We want to depend on the former, which requires the latter. I screwed up in the requires, thus the dependency issue during installation.
- 3) Loading of the native version does not work, fixed upstream, creating patch:
