**Revision a3aaa02f - 04/04/2018 10:36 AM - Tomer Brisker**

Fixes #23098 - Allow searching on all audited models by type (#5395)

This automatically adds all the audited models in an after_initilize block so that models defined in plugins are also included. All the search related definitions for audit have been extracted to a seperate concern. Models using STI require special handling until audits are fixed to properly work with STI.
