Description

Currently there is no way for a Host type to switch to another Host type (say, as part of a state transistion). This is necessary if plugins are going to do useful things with our Hosts.

Code at PR 460

Associated revisions

Revision 796352ed - 03/14/2013 05:22 PM - Greg Sutcliffe

fixes #2324 Refactoring of Host STI

Allows plugins to render a different STI-type edit form and save
the changed type. Also allows the /fact_values upload to specify
a type. Adds tests for the STI type changes.
