Foreman - Bug #2335

submitting a puppet class edit should go back to the class' page

03/18/2013 06:20 AM - David Schmitt

Status:	Closed		
Priority:	Low		
Assignee:	Joseph Magen

Pull request:			

Description

When editing a puppet class, submitting the changes goes back to the list of all classes. This looses the user's context. It would be nice to return to the class itself or the actual page the edit was coming from.

I can manage a simple redirect back to /puppetclasses/:id/edit easily enough, but that still loses the context of which class/smart variable you were editing. Perhaps Amos or Jospeh can show me a better way than this:

```
--- a/app/controllers/puppetclasses_controller.rb
+++ b/app/controllers/puppetclasses_controller.rb
@@ -44,10 +44,12 @@ class PuppetclassesController < ApplicationController
   def update
     if @puppetclass.update_attributes(params[:puppetclass])
       notice _("Successfully updated puppetclass.")
-      redirect_to puppetclasses_url
-    else
-      render :action => 'edit'
     end
     render :action => 'edit'
   end
```

Since there is no show action for puppetclass, I assume you want a redirect to the referrer page.

#5 - 05/21/2013 11:28 AM - Joseph Magen

- Status changed from New to Ready For Testing

#6 - 05/29/2013 03:37 AM - Dominic Cleal

We're a bit confused on the PR as to which page it should redirect back to. Would it be the page that originally led you to the class edit page, e.g. the puppet classes list with your search terms and so on, or back to the class edit page itself, as if Submit was just an "Apply" button?

#7 - 05/29/2013 07:17 AM - Joseph Magen

- Status changed from Ready For Testing to Closed

- % Done changed from 0 to 100

Applied in changeset fb95b3c779953dd59278edd16770fe0384e1e6e9.
