Pull request:	https://github.com/foreman/foreman/pull/5490	
Description		
<p>Pressing the escape key is supposed to exit from the fullscreen mode in the editor (in the partition templates, for instance). However, it doesn't work in the current version.</p> <p>How to produce:</p> <ol style="list-style-type: none">1) Login to Foreman2) On the left (vertical) menu choose "Hosts" > "Partition Tables"3) Click on one of the items in the table, for example "FreeBSD"4) Scroll down and click on the "Fullscreen" button below the "Template" section5) Press the escape key on the keyboard <p>Expected: exiting the fullscreen mode (like as you will when clicking on "Exit Fullscreen"). Received: nothing.</p>

Fixes #23386 - Exit fullscreen when pressing ESC

Pressing the escape key should make the editor exit the fullscreen mode. Nonetheless, when this key is pressed the "exit_fullscreen_editor" function is called but it was renamed to "exitFullscreen" which ends up with an error message in the console.

In this patch, I updated the called function to be "exitFullscreen" so it will be possible to exit fullscreen when escape key is pressed.
