Revision 14a7505f - 05/23/2018 02:43 PM - Dmitri Dolguikh

Fixes #23433 - lease uids are now parsed correctly

History

#1 - 04/27/2018 07:55 PM - Anonymous

- Related to Bug #23031: ISC DHCP new parser is still unable to parse DUID added

#2 - 05/02/2018 06:18 PM - Huaqing Z

The literal regex is still broken.

```
def server_duid
  Rsec::Fail.reset
  keyword = word('server-duid').fail 'keyword_server_duid'
  anything = /[^\s;,\{\}\s]+/.r
  literal = /"([^\s]|\\")*"\/.r
```

fails on

```
server-duid "\000\001\000\001\"vt\346\000PV\225S\347";
```

Changing the regex to

```
literal = /"([^\s]|\\")*"\/.r
```

Though you could just literally do `/"*/` and rely on greedy regex match to fix the issue and simplify the code.

**#5 - 05/28/2018 09:07 AM - Ivan Necas**

- translation missing: en.field\_release set to 330

I guess this should be pulled into 1.18 release

**#6 - 06/10/2018 06:31 PM - Timo Goebel**

1.17 branch would be even better. Unfortunately, I can't update the release field.

**#7 - 06/13/2018 06:22 AM - The Foreman Bot**

- Pull request <https://github.com/foreman-smart-proxy/pull/588> added

**#8 - 06/13/2018 06:23 AM - Lukas Zapletal**

- Category set to DHCP

- translation missing: en.field\_release changed from 330 to 360

Requesting backport into 1.17, this is an important one: [#23784](#)

**#9 - 06/14/2018 08:00 AM - Han Boetes**

I concur, this is an important patch. For anyone wanting to try the patch on 1.17:

- wget <https://github.com/foreman-smart-proxy/pull/588.diff>
- edit the file and remove the "test" chunk below.
- cd /usr/share/foreman-proxy/
- patch -p1 -i ~/588.diff
- service foreman-proxy restart
